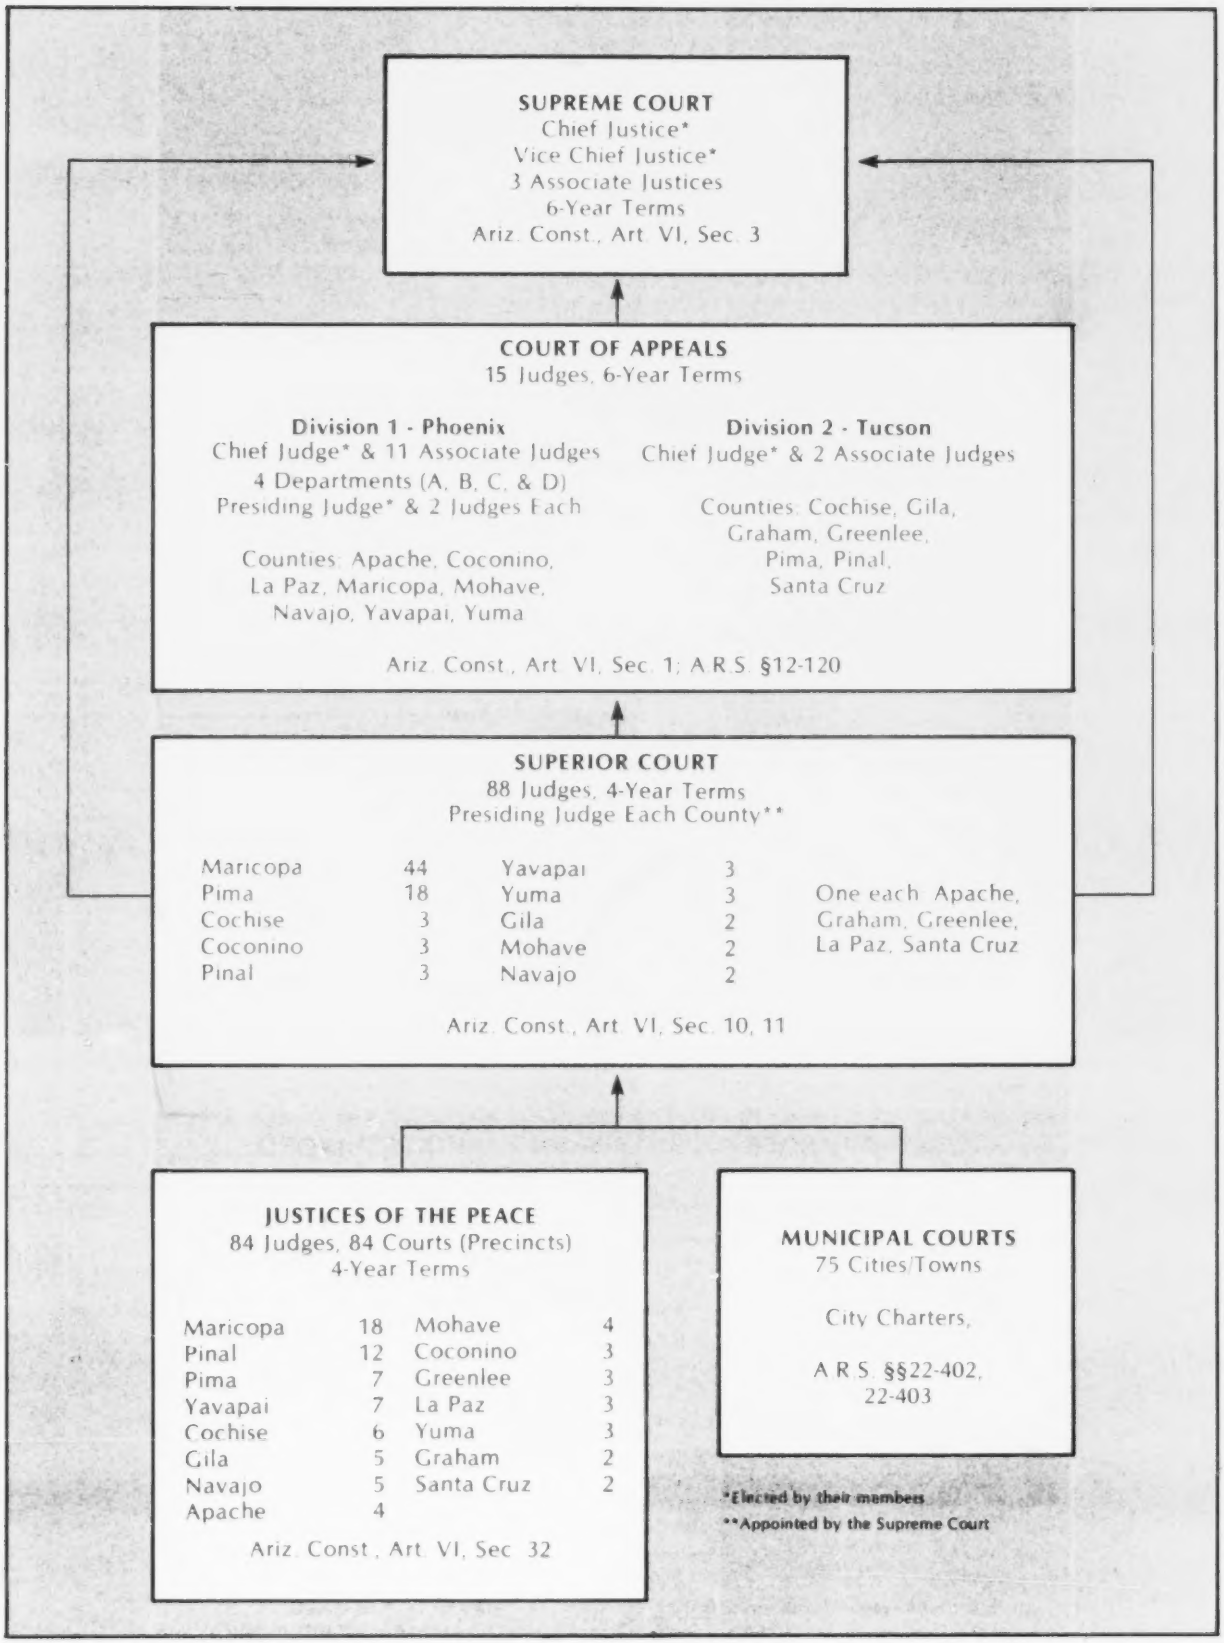
ORGANIZATIONAL CHART—THE ARIZONA JUDICIARY



The Judicial Branch of Government

> The judicial power shall be vested in an integrated judicial department consisting of a supreme court, such intermediate appellate courts as may be provided by law, a superior court, such courts inferior to the superior court as may be provided by law, and justice courts. Arizona Constitution, Article VI, Sec. 1

THE SUPREME COURT

The Arizona Supreme Court consists of five justices. The regular term of office is six years. The Supreme Court has administrative supervision over all the courts of the state and the Chief Justice has the authority to exercise that supervision. The jurisdiction of the Court is provided in Article VI, Section 5 of the Arizona Constitution and includes appellate jurisdiction, the issuance of extraordinary writs and the power to make rules relative to all procedural matters in any court. Decisions of the Court of Appeals may be reviewed at the discretion of the Supreme Court when a litigant files a Petition for Review.

In addition to law clerks and secretarial and clerical staff, the Court appoints the Administrative Director of the Courts, the Clerk of the Supreme Court, and a central staff of attorneys. All employees serve at the pleasure of the Court.

COURT OF APPEALS

The Court of Appeals consists of two divisions. Division One, with twelve judges, is located in Phoenix; Division Two, with three judges, sits in Tucson. The court has appellate jurisdiction to determine all matters properly appealed from the Superior Court. In criminal cases, however, where the sentence of death or life imprisonment has actually been imposed, the appeal is directly to the Arizona Supreme Court.

The geographical jurisdiction of Division One covers appeals from the Superior Court in the counties of Apache, Coconino, La Paz, Maricopa, Mohave, Navajo, Yavapai, and Yuma. In addition, Division One has statewide responsibility for reviewing decisions of the Industrial Commission and unemployment compensation appeals from the Department of Economic Security.

Division Two receives its cases from the Superior Court in the counties of Cochise, Gila, Graham, Greenlee, Pima, Pinal, and Santa Cruz.

SUPERIOR COURT

At the close of 1983, the Superior Court consisted of 88 judges sitting in 15 counties. The Superior Court is a trial court of general jurisdiction and is empowered to hear cases of equity and law which involve title to or possession of real property; civil cases where the claim for relief amounts to $2,500 or more; felony prosecutions and misdemeanors not otherwise provided for by law; probate matters; and cases involving dissolution or annulment of marriage. The Superior Court has concurrent jurisdiction with the Justice of the Peace Court over civil claims between $500 and $2,500. It also has exclusive jurisdiction in juvenile matters.

In counties with three or more Superior Court judges, the presiding judge may appoint court commissioners to perform such duties as may be provided by law or Supreme Court rules. Commissioners usually determine matters where a default has been entered against a party and may also preside at the initial appearance of a defendant charged with a crime.

Each county has a Superior Court Clerk who is elected at the general election. The responsibilities of the Clerk's office are diversified and include the maintenance of official court case files; certification of documents; collection of fees; and issuance of summonses, subpoenas, and marriage licenses. The Clerk serves as jury commissioner in all counties except Maricopa and Pima; a separate jury commissioner is appointed in these two counties.

Adult and juvenile probation departments are also operated under the supervision of the Superior Court.

JUSTICE OF THE PEACE AND MUNICIPAL COURTS

Statewide there are 84 justices of the peace sitting in the same number of precincts. These judges are elected at the general election by the voters in the precinct and their regular term of office is four years.

Municipal Courts are mandated by state law in each incorporated city or town; at the time of the 1983 personnel survey there were 75 such courts. Municipal judges are usually appointed by city or town councils.

These courts have jurisdiction to hear class 1, 2, and 3 misdemeanor cases. The justice of the peace may also conduct preliminary examinations on felony complaints. In addition, the Justice of the Peace Courts have civil jurisdiction over lawsuits involving less than $2,500. Municipal Courts are empowered to hear matters arising out of violations of city or town ordinances. Virtually all traffic violation cases are filed in the Justice of the Peace or Municipal Courts.

General Introduction

For the fifth year, detailed caseload, financial, and personnel information is presented by the Arizona Supreme Court in this separate volume, The Arizona Courts: 1983 Caseload, Financial, and Personnel Report. This report provides both statewide summary and detailed individual court unit information. Its value as a supplement to the 1983 Annual Judicial Report is to persons and agencies who are interested in or involved with budgeting, planning, and administration for the court systems within Arizona.

This is the sixth year in which caseload statistical data has been published in the same format. It is, therefore, possible for courts to use caseload information from this and previous reports to determine trends in their caseloads. Such information is of value when budgets are considered and in order to plan for the future needs of the court system.

REPORT FORMAT

This report contains sections on: statewide summary information, appellate courts, superior court, superior court probation, justice of the peace courts, municipal courts, and court receipts. For easy reference, each court section is indicated by the appropriate heading on the upper outside corner of the page.

The following introductory sections have been included to facilitate a better understanding of the data presented herein. These general statements are intended only as an overview of the data presented. Particular attention should be paid to the narrative statements and definitions at the beginning of each section and the footnotes applicable to various statistics.

CASELOAD STATISTICS

The caseload statistics presented herein have been compiled from the monthly statistical reports submitted to the Supreme Court by the individual appellate, superior, justice of the peace, and municipal courts of the state. Virtually all caseload data reported herein is complete. Incomplete or inconsistent information, where detected, has been appropriately footnoted in the specific section where the explanation is applicable. While the statistics are checked for mathematical accuracy, they are unaudited.

Justice of the peace and municipal court criminal statistics presented in this report reflect case "filings" while superior court figures reflect the number of "defendants" charged.

FINANCIAL INFORMATION

The financial information for superior and justice courts which is published in this report is based on a survey of the courts conducted during October 1983. Supreme Court personnel have worked to obtain the most complete and accurate information possible. However, the financial data presented herein is unaudited and, therefore, is dependent on the reporting accuracy of the courts participating in the survey. An effort was made to identify all costs of court operations where the cost is directly attributable to the individual court's budget.

Financial information for the municipal courts has been taken from published budget statements compiled by the Arizona League of Cities and Towns. Only total budget dollars appropriated and expended were available; therefore, these figures are not broken down into sub-categories.

The following definitions for the categories used in this report are included to provide a better understanding of the financial information presented.

DIRECT EXPENDITURES AND APPROPRIATIONS--those funds appropriated directly to the court by the immediate funding authority (appellate courts--state legislature; superior courts, probation departments, and justice courts--counties; municipal courts--cities and towns).

Personal Services - amounts for salaries and wages for all personnel.

Fringe Benefits - amounts for employer's cost of FICA, insurance, retirement contributions, etc.

Operating Expenses - amounts for utilities, telephones, postage, insurance, rent, building maintenance, office supplies, and office equipment maintenance.

Travel and Transportation - amounts for personnel mileage, per diem, and travel.

Professional Services - amounts for court reporter costs, juries, attorney fees for indigent defendants, and mental institution charges.

Capital Expenses - amounts for purchases valued at over $100.

INDIRECT EXPENDITURES AND APPROPRIATIONS--those expenses attributable to the court but which are included in the budgets of other departments or agencies.

Fringe Benefits - amounts for employer's cost of FICA, insurance, and retirement contributions not directly budgeted to the court.

Support Services - amounts for data processing, maintenance, accounting, payroll, law library, and building repair not directly budgeted to the court.

FEDERAL FUNDS--amounts received through such sources as federal revenue sharing, Title IV child support, and other federal programs.

PERSONNEL INFORMATION

The personnel information contained in this report is based on a survey of the staffing levels of the Arizona judiciary on October 1, 1983. Because of the vast number of job titles encountered both within and between the different levels of courts, broad general position groupings were developed to publish the information in a reportable format. Personnel definitions which detail the various types of positions included within each grouping are noted at the beginning of each trial court section and the probation section of this report.

Statewide Personnel Information

The table below reflects a statewide summary of all court personnel as of October 1, 1983. This information was reported by the individual courts in response to a personnel survey conducted by the Supreme Court. Personnel information for individual courts can be found in the appropriate section of this report.

The 1983 survey attempted to obtain the most accurate information possible regarding the staffing levels of the various courts throughout Arizona. Personnel have been identified as being full-time (F.T.) or part-time (P.T.) employees in the table below.

The superior court employs approximately 66.7% of the full-time and 25.1% of the part-time court personnel within the Arizona judiciary. The justice courts employ 13.5% and municipal courts employ 14.5% of the full-time court employees in the state. Appellate courts (Supreme Court and Court of Appeals) presently account for 5.3% of the judiciary's full-time workforce.

The total number of persons working full-time in the Arizona judicial system has increased from 2,741 in 1982 to 2,849 in 1983, a 3.9% increase.

Statewide Judicial Expenditures

The financial information shown below reflects expenditures of the Arizona judiciary as identified by the financial survey of courts for fiscal year 1982-83. The table summarizes the statewide financial figures for the various courts in Arizona. Financial information for individual court units can be found in the appropriate section of this report.

The pie charts illustrate the percentage of expenditures by funding source and by court level. The chart on the left shows the source of the funds expended by the judiciary. The counties provide most of the funds to operate Arizona's courts, 73.4%. This percentage has decreased slightly from the 73.6% they provided during 1981-82. The state's contribution for funding the courts was 10.3% in 1982-83, down from 10.7% in 1981-82. During 1982-83, federal funding provided only 2.4% of the identified statewide expenditures.

The pie chart on the right shows that during fiscal year 1982-83, 69.4% of the total expenditures for courts in Arizona were for services at the superior court level. This represents a slight increase from the previous year when the superior court accounted for 68.9% of the statewide total. Municipal courts were responsible for 13.9% of the statewide judicial expenditures and 10.5% of the total was expended for justice courts. The state's appellate courts accounted for 6.2% of the statewide expenditures which was a decrease from the 7.4% recorded in 1981-82.

Statewide Financial Information
All Courts

The table below represents specific line item expenditures for fiscal year 1982-83 and appropriated monies for fiscal year 1983-84. Much of this data was compiled based on responses to the Supreme Court's financial survey of the Arizona courts which was conducted in October 1983. Definitions concerning the types of expenditures included in the categories can be found in the General Introduction to the Caseload, Financial, and Personnel Information section on page 4.

In order to accomodate comparisons, the statewide financial information is provided for each of the court levels comprising the Arizona judiciary. Figures for the municipal courts were obtained from the Arizona League of Cities and Towns and were available only as total expenditures and appropriations. These figures have been included in the personal services category.

It should be noted that money received by adult probation departments as probation services fees and money received by the juvenile probation departments from the Juvenile Crime Reduction Fund may be included in superior court 1982-83 expenditures but, because of their nature, cannot be included in the 1983-84 appropriation figures.

CASE ACTIVITY

Case filings in the Supreme Court increased significantly in 1983; a record 1,225 cases were filed during the year as opposed to 1,027 cases filed in 1982. This filing count was supplemented by the transfer of 12 cases from the Court of Appeals for a total of 1,237 new cases. In 1983 the Court was able to terminate a record total of 1,165 cases. However, despite the increased number of cases terminated, the total number of cases pending at year-end continued to increase from 220 matters in 1982 to 292 matters at the end of 1983.

As shown in the pie chart, petitions for review constitute the largest percentage (62.5%) of the total number of cases filed in the Court during 1983. The remainder of the Court's caseload is divided among special actions, criminal cases, state bar matters, miscellaneous actions, and other cases.

During the years 1978-82, the general trend of case filings in the Supreme Court had stabilized. However, in 1983 total filings increased 19.3%. Petitions for review reported the most significant change by increasing 31.7% from 581 cases in 1982 to 766 cases in 1983. Special actions increased from 196 cases filed in 1982 to 215 cases filed in 1983 (a 9.7% increase). Habeas Corpus filings increased 37%, rising from 54 matters in 1982 to 74 matters in 1983. Criminal filings also increased slightly during the year. Miscellaneous and state bar filings reflected a decrease in filings of 8.2% (85 in 1982 versus 78 in 1983) and 38% (50 in 1982 versus 31 in 1983) respectively.

Case terminations increased 12.3% rising from 1,037 in 1982 to 1,165 in 1983. Terminations in the Court increased most significantly in the case categories of Habeas Corpus (51.0%), petitions for review (24.2%), and special actions (8.2%).

Court of Appeals - Division One

CASE ACTIVITY

During 1983 Division One received 1,784 case filings, just seven short of 1982's record high 1,791 filings. Due to the addition of the new fourth panel of judges, case terminations increased significantly in 1983, rising 18.2% to a record 1,833 matters. As a result of this increased number of terminations, the number of cases pending in the court at year-end declined 2.8% from 1,786 cases in 1982 to 1,737 cases in 1983. This is the first time the court has been able to decrease the ending-pending caseload figure since 1978.

Filing activity in Division One remained relatively stable in 1983. Criminal filings decreased 7% from 866 matters in 1982 to 805 matters in 1983. Criminal petitions for post-conviction relief increased 17.1% rising from 70 cases in 1982 to 82 cases in 1983. Civil case filings also increased during the year from 531 cases in 1982 to 553 cases in 1983. Industrial Commission case filings decreased from 212 matters in 1982 to 179 matters in 1983 (a 15.6% decrease). Unemployment insurance cases increased, changing from 55 filings in 1982 to 67 filings in 1983. One of the most significant changes occurred in the category of juvenile appeal filings which rose from 28 cases in 1982 to 54 cases in 1983.

As mentioned previously, a record number of case terminations occurred during 1983. Since the fourth panel of judges was created in July 1982, terminations have increased 25.3%. Terminations in the categories of civil and criminal cases reported significant increases during the year. Criminal case terminations increased 18.8% from 671 cases in 1982 to 797 in 1983. Civil appeal terminations, 651 cases, showed a 34% increase over the 486 cases terminated in 1982. The number of Industrial Commission cases closed decreased 13.5% from 230 terminations in 1982 to 199 terminations in 1983.

Court of Appeals - Division Two

CASE ACTIVITY

Pending cases confronting the three appellate judges in Division Two of the Court of Appeals increased to a record level during 1983. There were 502 cases pending at year-end which is a 17.6% increase over the 427 cases pending at the beginning of the year. The number of case filings decreased 4.9% during the year from 821 filings in 1982 to 781 filings in 1983. The total number of cases terminated by the court also declined slightly in 1983 from 721 terminations in 1982 to 706 terminations in 1983 (a 2.1% decrease).

The number of filings in Division Two has remained at a high level since 1975. In five of the past six years total filings have exceeded the 700-case level. This level far exceeds the number of filings that were experienced in 1969 when a second three-judge panel was added in Division One.

During 1983, civil cases recorded an 8.1% increase in filings, rising from 211 cases filed in 1982 to 228 cases filed in 1983. A decrease in criminal filings was reported during the year; 357 criminal filings were received in 1983 as compared with 370 in 1982 (a 3.5% decrease). Special action and juvenile filings also declined.

Division Two has responded to filing activity increases over the past several years with an increase in termination activity. During the past five years, Division Two has maintained an average of 687 terminations per year. In 1983 criminal case terminations reflected an 8.7% increase over 1982 figures and civil cases reported a 6.3% decrease.

The total number of cases pending at year-end increased significantly from 427 matters in 1982 to 502 matters in 1983; this represents a 17.6% increase in pending cases for the year. Despite high termination levels over the past five years, the massive increase in filing activity during that same time period has resulted in the number of pending cases growing from a low of 218 in 1979 to 502 pending matters at the end of 1983. Pending cases have, therefore, grown 130% during the past five years. These statistics indicate that while the judges of Division Two have adjudicated large numbers of cases during recent years, the caseload has simply grown beyond their current capacity.

In 1984, legislation will be introduced to establish a second panel of judges in Division Two. The time has come when the plight of Division Two cannot be ignored. Action to establish a second panel of judges with supporting staff is necessary in order to maintain an efficient and expeditious system of appellate justice for southern Arizona.

CASELOAD STATISTICS

INTRODUCTION

The caseload statistics contained on the following pages are based on the case activity data reported monthly by each superior court to the Arizona Supreme Court. The statistics are presented on both an individual county basis and a statewide summary basis, by county and by case type. Although most court caseload statistics reported herein are complete, some statistical information was not available for reporting purposes. Such omissions are noted on the applicable charts.

On January 1, 1983 Yuma County was divided, and Arizona's newest county, La Paz, began operation. Thus, statistics for La Paz Superior Court are shown for the first time this year. This does not have any impact on statewide figures, but it does affect the numbers for Yuma County. Cases were transferred out of Yuma Superior Court to be handled by La Paz Superior Court.

The 1983 report represents the sixth year in which the current superior court statistical reporting forms have been used by the Supreme Court. In 1984 the forms and instructions will be revised to condense the amount of information collected while expanding its usefulness.

Both the superior court and the superior court probation department in each county have reported statistics on the disposition of criminal defendants who were found guilty. These two sets of figures do not coincide. Some of the variance is related to the fact that the probation department only keeps sentencing statistics on those individuals who are referred to the probation department prior to sentencing. Since not all defendants who are sentenced by the superior court are referred to the probation department prior to sentencing, the number of offenders actually sentenced may be greater than the number reported by the probation department.

The case activity charts on the following pages contain categories entitled "transferred in" and "transfer out". Although these categories are included primarily to report the actual transfer of cases or defendants between counties, the categories may also be employed to accomplish statistical adjustments of discovered reporting inaccuracies. These inaccuracies are usually detected by court personnel during physical inventories of pending caseloads. In instances where physical inventory adjustments are made, the total yearly adjustments have been published as reported.

As in past years, the only major omissions in the 1983 caseload statistics are the adoption and juvenile dependency filing statistics from the Maricopa Superior Court. That court was able to provide termination statistics for these categories and those numbers have been footnoted on the appropriate charts. However, since complete caseflow statistics were not available, the Maricopa figures have not been included in any statewide summaries or totals. Due to the size of the Maricopa caseload, these omissions have a significant impact on these statistical categories.

1983 Caseload Activity

The superior court reported a decrease in filings for 1983. The total number of filings in the state decreased 1.7% from 98,110 filings in 1982 to 96,426 filings in 1983. The total number of terminations in the superior court also decreased during the year declining from 98,138 cases in 1982 to 94,961 cases in 1983, a 3.2% decrease. The year-end pending caseload increased, rising 3% from 98,569 cases in 1982 to 101,527 cases in 1983. These figures do not take into account the various pre- and post-judgment matters which are also processed by the superior court and are reported on page 35 of this report.

Since this is the sixth year in which superior court caseload statistics have been collected in their current format, short-term trends can be identified. As illustrated in the bar graphs, filings increased markedly during 1979 and 1980, but have remained relatively stable since then. The 1983 total filing figure of 96,426 cases represents a 7.6% growth in filing activity over the five-year period beginning in 1979. Year-end pending counts have increased significantly during the same time period, rising from 88,145 in 1979 to 101,527 in 1983, a 15.2% increase.

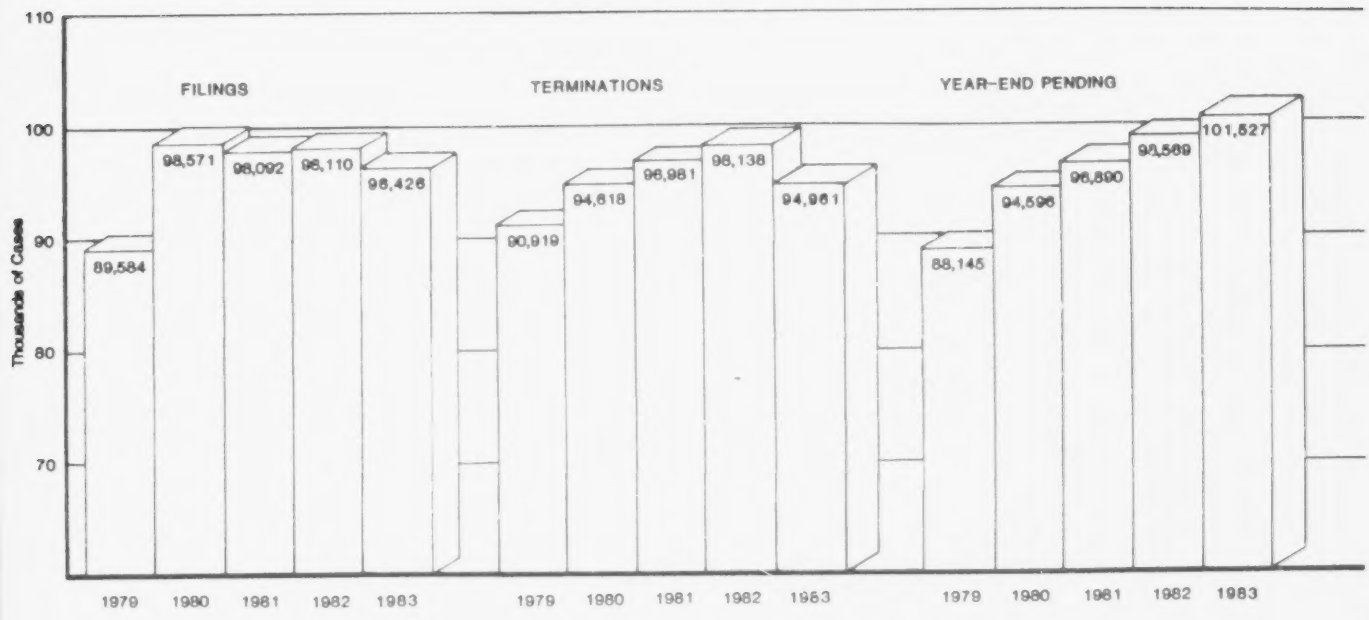
There was only minimal change in the superior court caseload between 1982 and 1983. A slight decrease was reported for felony filings and for total criminal filings. Civil filings also seem to be relatively stable decreasing marginally from 38,371 to 37,797 (a 1.5% decrease).

The most significant increase occurred in domestic relations filings, which increased 4.7% overall (25,573 filings in 1982 versus 26,765 filings in 1983). The most significant decrease was in reciprocal support filings. In 1982 a total of 6,924 filings were reported while in 1983 a total of 4,721 filings occurred (a 31.8% decrease).

In another family-related caseload statistic, domestic violence actions increased 11.6% from 558 filings in 1982 to 623 filings in 1983.

Overall, the number of superior court cases terminated during the year decreased 3.2%. The total number of terminations decreased from

Superior Court Activity
1979-1983



98,138 cases in 1982 to 94,961 cases in 1983. Criminal case terminations decreased 4.6% from 16,874 cases in 1982 to 16,092 cases in 1983. Civil case terminations remained relatively unchanged increasing from 38,814 terminations in 1982 to 39,092 terminations in 1983. The most significant change occurred in reciprocal support cases where a 29.3% decrease was reported. This case category declined from 7,279 terminations in 1982 to 5,144 in 1983. This case category reflected a similar decrease in filings. Finally, probate terminations increased 6.2% rising from 6,674 in 1982 to 7,087 in 1983.

The superior court in Arizona handled a widely diverse caseload during 1982. As shown in the pie chart, civil cases comprise the largest category of cases filed with the court, representing over one-third of all cases filed (39.2% in 1983). Domestic relations cases constitute the second largest case category with 27.8% of the total caseload. Criminal cases comprised 17.2% of the filings and the remaining types of cases represent the final 15.8% of the case filings in the court.

Overall, in 1983 the superior court imposed more sentences requiring incarceration at the state or local level than it did in 1982. Sentences which did not include some type of confinement decreased statewide. During 1983, sentences requiring incarceration by the State Department of Corrections for felony convictions increased 8.6%, rising from 2,924 in 1982 to 3,177 in 1983.

Sentences to county jail also increased significantly (36.4%) growing from 401 in 1982 to 547 in 1983. Sentences of probation with confinement increased slightly rising from 2,763 in 1982 to 2,802 in 1983 (a 1.4% increase).

In contrast, sentences of probation without confinement decreased 10.2%, falling from 5,022 in 1982 to 4,508 in 1983. Sentences of "fine only" and "other dispositions" also reported decreases for 1983. "Fine only" sentences decreased 20.1% and "other dispositions" decreased 12.7%.

Caseload Statistical Definitions

The following definitions are included to afford the reader a better understanding of what the statistical data reported represents. Civil, domestic relations, and all other non-criminal statistics reflect the number of cases. Criminal statistics reflect the number of defendants named in complaints, informations, and/or indictments.

Case Categories

CIVIL - Tort Motor Vehicle, Tort Non-Motor, Medical Malpractice, Contract, Eminent Domain, Lower Court Civil Appeals, and Non-Classified Civil cases.

DOMESTIC RELATIONS - Paternity, Maternity, Dissolution, Annulment, Legal Separation, County Attorney Petitions to Establish Support, and other custody proceedings.

PROBATE - Estate Probate, Trust Administration, Guardianship, and Conservatorship cases.

ADOPTION - Petitions for the adoption of a minor.

JUVENILE DEPENDENCY - Petitions to declare a juvenile to be a dependent or neglected child.

FELONY - Defendants in criminal cases who are charged with a felony offense. Criminal statistics for superior court represent numbers of defendants, not cases.

MISDEMEANOR - Defendants in criminal cases who are charged with a misdemeanor offense.

UNCLASSIFIED - Defendants in criminal cases who are charged with an offense which does not come under any of the other criminal case categories listed, e.g., peace bond complaints.

LOWER COURT APPEALS - The number of civil cases appealed, or defendants in criminal cases who appeal a decision rendered in a city court or a justice of the peace court.

TRIAL DE NOVO - A new trial resulting from a lower court appeal; the entire case is retried.

ON THE RECORD - An appeal of a lower court decision in which legal issues are reviewed by inspection and examination of the record of the lower court proceedings.

Case Activity

CASES TRANSFERRED IN - The number of cases (defendants in criminal cases) transferred in from the superior court in another county. Cases in which a motion for new trial has been granted or a remand from an appellate court has been ordered are included in this category, as well as statistical adjustments to correct discovered inaccuracies.

WITH PLEA - The number of defendants in criminal cases who enter a plea of guilty or nolo contendere prior to the commencement of a trial.

TRIAL IN PROCESS - The number of cases (defendants in criminal cases) terminated during, but prior to the completion of, a trial. For purposes of this report, a trial commences when the first witness is sworn.

COURT TRIAL - The number of cases (defendants in criminal cases) terminated following the completion of a trial without a jury.

JURY TRIAL - The number of cases (defendants in criminal cases) terminated following the completion of a jury trial.

AFFIRMED - Superior court ruling on a lower court appeal on the record in which the decision of the lower court is upheld.

REVERSED - Superior court ruling on a lower court appeal on the record in which the decision of the lower court is reversed.

ARBITRATION - The number of civil cases terminated by arbitration, pursuant to Arizona Revised Statutes §12-133. Arbitration cases that are appealed to the superior court are not included in this termination category.

MEDICAL MALPRACTICE PANELS - The number of civil medical malpractice cases concluded by medical liability review panels. Cases in which the parties proceed with court litigation are not included in this termination category.

FINANCIAL INFORMATION

The financial information contained in this section of the report is based on the results of a detailed survey obtained from the superior court in each county. Statewide superior court summary information is contained in four tables which appear on the following pages. The tables separate actual expenditures made during fiscal year 1982-83 from the budgeted amounts appropriated for fiscal year 1983-84 for both the court and the clerk of court. Financial information for the probation department of the superior court appears in the probation section of this report.

PERSONNEL INFORMATION

The personnel information presented in this section of the report is based on responses to a personnel survey conducted by the Arizona Supreme Court in the fall, 1983.

As a result of the variety and number of job titles encountered in compiling this information, general position groupings were developed.

Superior Court Probation

The information contained in this section of the annual report is based on monthly reports submitted by superior court probation departments to the Arizona Supreme Court.

On January 1, 1983, Yuma County was divided, and Arizona's newest county, La Paz, began operation. Thus, statistics for La Paz Superior Court Probation Department are shown for the first time this year. This does not have any impact on statewide figures.

PROBATION ACTIVITY, 1983

Adult

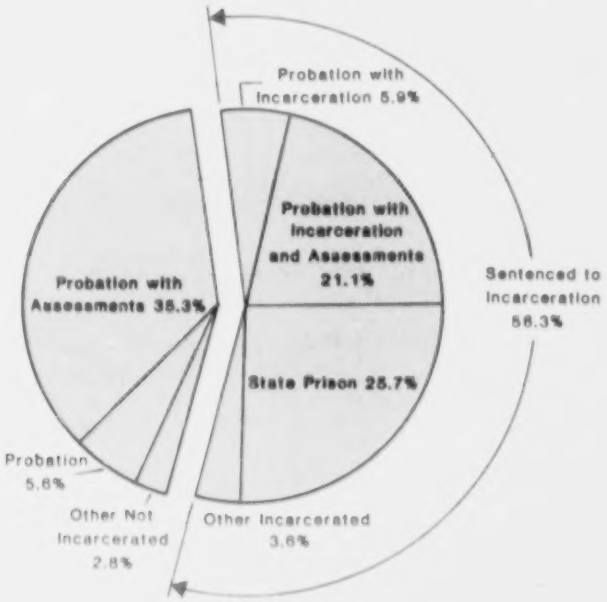
During 1983, a total of 9,552 written presentence reports were completed by probation departments in the state. As shown in the flow chart on page 74, a total of 6,223 individuals were placed on probation during the year which, when added to the 14,949 adults already on probation, comes to a total of 21,172 persons supervised by probation departments in 1983. Of that total, 762 probationers had their probation revoked and were sentenced to either county jail or the State Department of Corrections. A total of 2,007 probationers completed their full term of probation during 1983, and 2,646 probationers received early terminations during the year.

A total of 9,552 adults were referred to probation departments for presentence reports. This represents a 2.5% decrease from the 9,796 offenders referred during 1982. For the second year in a row a decrease occurred in the number of offenders placed on probation by the superior court. The number of new probationers dropped from 6,526 in 1982 to 6,223 in 1983, a 4.6% decrease.

As illustrated in the pie chart, 56.3% of those offenders referred to the probation department prior to sentencing during 1983 received a sentence requiring incarceration. This represents an increase from the 1982 figures when 52.4% received some type of incarceration in their sentence. Sentences to the Department of Corrections reflected an increase from 24.3% in 1982 to 25.7% in 1983; this includes 2,347 adult offenders who were sentenced to the custody of the Department of Corrections and 10 individuals sentenced to death.

In 1983, probationers paid nearly $4,000,000 in restitution, reimbursement, fines, and fees. This represents a 31.1% increase over the amount collected during 1982. This figure includes $1,101,882 in probation fees for 1983 which represents a 110% increase over the $523,343 collected in 1982. Pursuant to A.R.S. §13-901, individuals placed on probation after July 25, 1981, shall, if found able by the superior court, pay a fee which is deposited in the probation services fund. In addition to the money collected, 95,116 hours of public work service were provided by probationers, an increase of 9.7% over the 1982 figure of 86,710 hours.

Sentences of Adults Referred to Probation Departments Prior to Sentencing



Sentencing statistics are provided to the Supreme Court by both the probation department and the superior court in each county. These two sets of figures do not coincide. Some of the variance is related to the fact that the probation department keeps sentencing statistics only on those individuals who are referred to the probation department prior to sentencing. Since not all defendants who are sentenced by the superior court are referred to the probation department prior to sentencing, the number of offenders actually sentenced may be greater than the number reported by the probation department.

Juvenile

During 1983 the juvenile probation departments received 35,119 referrals on juveniles alleged to be delinquent or incorrigible. In addition, there were 4,323 referrals pending at the beginning of the year. Thus, a total of 39,442 referrals were handled by the juvenile probation departments during 1983. This total does not include referrals for minor traffic offenses.

The flow chart shown on page 77 illustrates the general movement of a case as it goes through the juvenile justice system. It shows that the vast majority (58.4%) of the 39,442 referrals were adjusted and no petition was filed. As indicated on the flow chart, referrals are tallied as "paper" counts; it is possible for a juvenile to have more than one referral filed against him.

The next section of the flow chart deals with individual children. It shows the number of juveniles who have petitions filed against them and the subsequent method of termination of those petitions. A total of 10,273 children had petitions filed in 1983. Of that total, 6,460 were adjudicated delinquent or incorrigible. In 1983 dispositions were entered for 6,180 children. This figure does not match the number of children adjudicated, possibly because of the delay in disposition due to predisposition investigations and reports. The final series of boxes on the flow chart reflects the total number of children under supervision by juvenile probation departments in the state. During the year 3,765 children were placed on probation. Added to the number of children already on probation, juvenile probation departments supervised 7,397 probationers during the year.

The first bar chart shows that most juvenile referrals (49.5%) were for crimes against property. The second bar chart reflects action taken on the 39,442 referrals processed by the juvenile court during the year. As mentioned previously, the majority of the referrals, 58.4%, were adjusted by the court. When a case is adjusted, counseling and other support services are often provided to the juveniles and their parents through the probation department. A petition was filed in 26.5% of the cases processed by the juvenile court, and 5.4% were transferred to another court.

As a result of the referrals which ended in petitions being filed, 6,180 children received one of the following dispositions from the court: probation (44.9%); probation with a special condition that monetary restitution be provided (13.9%); continuation on an existing grant of probation (15.3%); commitment to the State Department of Corrections (14.4%); or a disposition that did not involve probation or confinement (11.5%).

On December 31, 1983, the juvenile probation departments in the state were supervising 4,080 juveniles on probation to the court. Based on the figures reported, this was an increase of 12.3% (448 juveniles) between January 1, 1983, and December 31, 1983.

Juveniles supervised by probation departments during 1983 provided $256,395 in restitution, reimbursement, and penalties. This is an 11.2% increase from the amount collected during 1982. The number of hours of public work service provided by juveniles increased by 66.1%, rising from 51,776 hours in 1982 to 86,026 hours in 1983.

FINANCIAL INFORMATION

The financial information contained in this section of the report is based on the results of a detailed survey obtained from the superior court in each county. Statewide superior court probation department financial information is presented in four tables which appear on the following pages. The tables separate actual expenditures made during fiscal year 1982-83 from the budgeted amounts appropriated for fiscal year 1983-84 for both adult and juvenile probation departments. It should be noted that money received by adult probation departments as probation services fees and money received by juvenile probation departments from the Juvenile Crime Reduction Fund may be included in department expenditures but, because of their nature, cannot be included in the appropriation figures.

PERSONNEL INFORMATION

The personnel information presented in this section of the report is based on responses to a personnel survey conducted by the Arizona Supreme Court in the fall, 1983. As a result of the variety and number of job titles encountered in compiling this information, general position groupings were developed.

The general position groupings which were developed for summarizing all superior court probation positions are listed below. (Additional personnel information for the superior court can be found in the Superior Court section of this report. Positions are shown on the chart for the department which budgets the individual's salary. For example, juvenile court judges are paid from the superior court budget, but juvenile court referees are paid from the juvenile probation budget.)

Justice of the Peace Courts

CASELOAD STATISTICS

General

The 1983 caseload statistics contained in this section of the report are based on the monthly statistical reports submitted to the Supreme Court by the justice courts.

In 1983 there were a number of changes in the justice courts. The Green Valley justice court precinct was established in Pima County and three justice court precincts were consolidated in Coconino County. Coconino East and Sedona precincts merged with Flagstaff West to form the new Flagstaff precinct and the Fredonia precinct was consolidated with the Page precinct. In addition, three of Yuma County's precincts are now in the new county of La Paz; these are Parker, Quartzsite, and Salome.

The monthly statistical report forms and caseload statistical tables used in this report include categories entitled "transferred in" and "transferred out." Although these categories are included primarily to report the actual transfer of cases from one court to another, the categories may also be employed to make statistical adjustments of discovered reporting inaccuracies. Such inaccuracies are usually detected either during physical inventories of pending caseloads by court personnel or by staff of the Administrative Office of the Courts during routine monitoring of the monthly reports.

For some courts, physical inventories of pending caseloads resulted in statistical adjustments being made in both the transferred in and transferred out categories within the same case category. Where possible, such adjustments have been offset against each other, with the offsetting difference reported either as transferred in or transferred out.

This year a new justice court chart has been included. It provides filing figures for each general case category and lists the courts in descending order by their total number of filings. For purposes of this chart, justice court precincts in the Phoenix and Tucson areas which have consolidated all or part of their caseloads are shown as consolidated courts.

1983 Caseload Activity

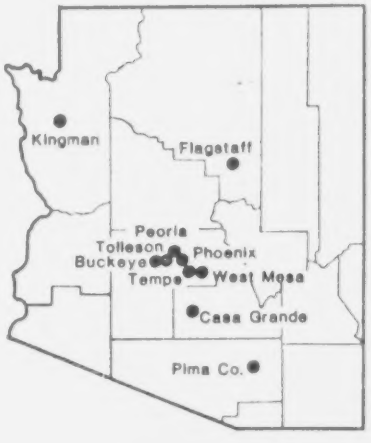
The overall number of filings in justice courts for 1983 decreased 18.5% during the year. In 1982 a total of 633,979 filings were recorded while in 1983 a total of 516,802 filings were received by the justice courts. Terminations decreased similarly in 1982, falling from 596,637 terminations in 1982 to 516,950 terminations in 1983 (a 13.3% decline). Total pending matters continued to increase during the year rising 6.3% from 295,233 cases pending at the end of 1982 to 313,739 cases pending at the end of 1983.

The category that most significantly impacts the overall filings figure is traffic filings; it includes traffic-related failure to appear complaints (FTA's). In 1982 a total of 521,945 traffic cases were filed, as compared with 402,550 traffic filings in 1983 (a decrease of 22.9%). Within the traffic filing figure is the number of driving while intoxicated (DWI) filings which also reflect a decrease; the latter went down 12.1% from 17,654 filings in 1982 to 15,522 filings in 1983.

In contrast to the decreases being reported in traffic case filings, both misdemeanor and civil filings are increasing in justice courts. Misdemeanor filings, which include misdemeanor related FTA's, increased 1.1%, rising from 25,789 filings in 1982 to 26,070 filings in 1983. Similarly, civil filings increased from 68,291 filings in 1982 to 72,267 filings in 1983 (a 5.8% rise). Petitions in domestic violence actions also increased in 1983. These actions increased 4.3% from 2,978 filings in 1982 to 3,105 filings in 1983.

Felony preliminary hearing filings decreased 11.4%, falling from 17,954 filings in 1982 to 15,915 in 1983.

Terminations also decreased during 1983. Total case terminations decreased 13.4%, falling from 596,637 to 516,950 in 1983. As in filings, due to their sheer numbers, traffic cases have the largest impact on justice court terminations. In 1982 a total of 496,248 traffic cases were terminated versus 408,236 terminations for



This map identifies the ten justice court precincts with the highest number of total filings. For a complete listing of the precincts, see pages 116-117.

1983 (a 17.7% decrease). Within traffic, the number of DWI terminations also decreased from 16,220 to 15,587. However, non-traffic misdemeanor terminations increased 16.3% from 23,376 in 1982 to 27,196 in 1983. Civil terminations also increased, rising 11.6% from 58,873 in 1982 to 65,708 in 1983. Within the civil case category, small claims case terminations by trial reported a 10.4% increase, rising from 5,610 small claims trials in 1982 to 6,196 trials in 1983.

As shown in the pie chart, the vast majority of filings (77.9%) in justice courts relate to misdemeanor traffic complaints. Civil cases comprise 14% of the filings, preliminary hearings account for 3.1%, and non-traffic misdemeanor cases represent 5%.

Caseload Statistical Definitions

The following definitions are included to provide the reader with a better understanding of what the caseload statistical data represents. For all case categories, the statistical data reflects the number of case filings for the year.

Case Categories

CIVIL - A lawsuit in which the claim is less than $2,500. Also included are forcible entry and detainer actions (recovery of leased or rented property) providing the rental value does not exceed $500 per month and damages sought are less than $1,000.

MISDEMEANOR--TRAFFIC - Includes traffic violations contained in Title 28 of the Arizona Revised Statutes including driving while intoxicated, reckless driving, and other moving violations. Traffic statistics also include all violations of Arizona Corporation Commission Motor Carrier Rules and Regulations.

MISDEMEANOR--NON-TRAFFIC - All other misdemeanors where the law provides for punishment that does not exceed six months incarceration and/or a fine of up to $1,000.

PRELIMINARY HEARINGS - A hearing to determine whether the defendant should be held for trial in the superior court on a felony complaint.

Case Activity

TRANSFERRED IN - The number of cases transferred in from other justice of the peace precincts. Also includes statistical adjustments to correct discovered inaccuracies and inventory adjustments.

TRANSFERRED OUT - The number of cases transferred out to other precincts. Also includes statistical adjustments to correct discovered inaccuracies and inventory adjustments.

WITHOUT TRIAL - The number of cases terminated without a trial including: dismissals by the judge, summary judgments, and dismissals by the plaintiff or by stipulation of the parties involved.

PLEAS AND/OR BOND FORFEITURE - The number of cases terminated after the acceptance of a guilty or no contest plea to the original charge, and the number of cases in which a posted bond was forfeited.

OUT OF JURISDICTION - For statistical reporting purposes only, shows the number of cases in which defendants are believed to be physically outside the court's jurisdiction and no arrest warrant has been issued.

FINANCIAL INFORMATION

The financial information contained in this section of the report is based on the results of a detailed financial survey obtained from the justice courts. Actual expenditures made during fiscal year 1982-83 are presented separately from the budgets appropriated for the courts for fiscal year 1983-84.

Included in the General Introduction on page 4 is a brief explanation related to the overall financial information contained in the report and definitions as to what the financial categories presented include.

PERSONNEL INFORMATION

The personnel information presented here is based on responses to a personnel survey conducted by the Arizona Supreme Court in the fall, 1983. As a result of the variety and number of job titles encountered in compiling this information, the following general position groupings have been established for purposes of this report:

Judge
Constable
Administrative Staff
Support Staff
Secretary/Clerical

Since little, if any, statewide uniformity appears to exist in regard to position titles and corresponding work-related responsibilities, for purposes of this report, positions have been grouped together solely on the basis of position titles.

The position title of Courts Administrator is included in the "Administrative Staff" category.

The following position titles are included in the "Support Staff" category:

Accountant
Court Records Supervisor
Court Reporter
Interpreter
Janitor
Justice Court Supervisor
Office Supervisor
Process Server

The following position titles are included in the "Secretary/Clerical" category:

Account Clerk
Accounting Aide
Administrative Secretary
Bookkeeper/Office Manager
Chief Clerk
Civil Clerk
Clerical Aide
Clerk
Clerk/Constable
Clerk/Interpreter
Clerk/Typist
Court Clerk
Court Records Technician
Criminal Clerk

Municipal Courts

CASELOAD STATISTICS

General

The caseload statistics contained in this section of the annual report are based on the monthly statistical reports submitted to the Supreme Court by the municipal courts. This is the sixth year that municipal court statistics have been available to the Supreme Court on a statewide basis. This is the second full year that municipal court statistics have been based on case counts rather than defendant counts. In 1981 the municipal court statistical reports were changed to reflect case counts and thus coincide with the justice court statistics. This provides a uniform method of counting limited jurisdiction court statistics and permits statistical comparisons between court units.

Only one court did not report complete statistics for 1983. Due to computer difficulties, Tucson City Court's non-traffic termination figures for November and December are not included in the yearly totals.

Both the monthly statistical reporting forms and the caseload statistical tables in this report include categories entitled "transferred in" and "transferred out." Although these categories are included primarily to report the actual transfer of cases between courts, the categories may also be employed to make statistical adjustments of discovered reporting inaccuracies. Such inaccuracies are usually detected either during physical inventories of pending caseloads by court personnel or by staff of the Administrative Director's Office during routine monitoring of the monthly reports.

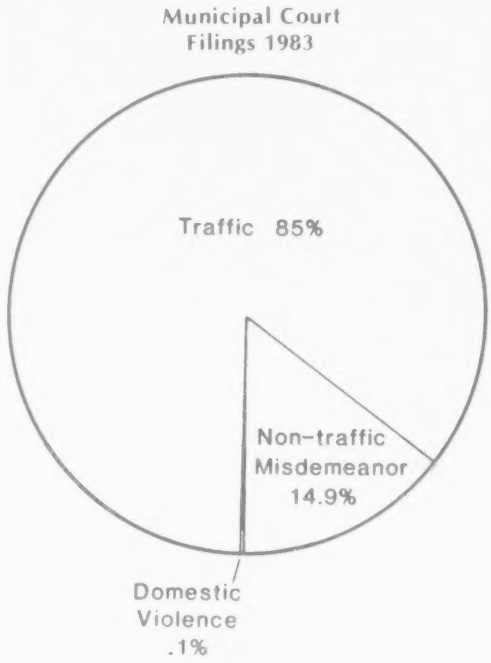
For some courts, physical inventories of pending caseloads resulted in statistical adjustments being made in both the transferred in and transferred out categories within the same case category. Where possible, such adjustments have been offset against each other with the offsetting difference reported either as transferred in or transferred out.

This year a new municipal court chart has been included. It provides filing figures for each general case category and lists the courts in descending order by their total number of filings.

1983 Caseload Activity

Total case filings for municipal courts decreased 5.3% from 815,351 in 1982 to 772,126 in 1983. Total traffic filings, which make up the bulk of the municipal court caseload, decreased 4.8% (from 690,335 to 657,284). Driving while intoxicated (DWI) filings are included in these traffic filings. Unlike the remainder of the traffic caseload, the number of DWI filings increased from 32,022 in 1982 to 38,921 in 1983, a 21.5% increase. Misdemeanor filings declined by 8.1% from 125,016 in 1982 to 114,842 in 1983. Domestic violence cases also decreased slightly from 947 petitions filed in 1982 to 893 petitions filed in 1983 (a 5.7% decrease).

The pie chart reflects the distribution of 1983 filings in the municipal court by case type. Traffic violations represent 85% of all municipal court filings, 14.9% relate to non-traffic misdemeanors, and only .1% relate to domestic violence petitions for an order of protection.



Overall, case terminations in municipal courts decreased in 1983. Total case terminations declined 15.1% from 786,954 in 1982 to 667,775 in 1983 (some of this decrease can be attributed to the absence of Tucson City Court non-traffic termination statistics for November and December). Terminations in each of the case categories (traffic and non-traffic misdemeanor) and the DWI subcategory decreased during the calendar year. DWI terminations decreased 6% during 1983, falling from 33,597 in 1982 to 31,564 cases in 1983. This was the first full year that the new "mandatory sentence" DWI law was in effect in Arizona; therefore, part of this decrease in termination activity might be explained by the increase in DWI trials which were up 19% during the year rising from 1,435 trials held in 1982 to 1,707 trials in 1983. Total traffic terminations decreased 16% and total misdemeanor terminations decreased 9.5%.

Caseload Statistical Definitions

The following statistical definitions are included to provide a better understanding of what the caseload data reported represents. The statistical data for all case categories reflects the number of case filings for the year.

Case Categories

MISDEMEANOR--TRAFFIC - Includes traffic violations contained in Title 28 of the Arizona Revised Statutes, including driving while intoxicated, reckless driving while intoxicated, reckless driving, and other moving violations. Also included are violations of Arizona Corporation Commission Motor Carrier Rules and Regulations.

MISDEMEANOR--NON-TRAFFIC - All other misdemeanors where the law provides for punishment that does not exceed six months' incarceration and/or a fine of up to $1,000.

Case Activity

TRANSFERRED IN - The number of cases transferred in from other municipal courts. Also includes statistical adjustments to correct discovered inaccuracies and inventory adjustments.

TRANSFERRED OUT - The number of cases transferred out to other municipal courts. Also includes statistical adjustments to correct discovered inaccuracies and inventory adjustments.

PLEA AND/OR BOND FORFEITURE - The number of cases terminated after the acceptance of a guilty or a no contest plea to the original charge, and the number of cases in which a posted bond is forfeited.

OUT OF JURISDICTION - For statistical reporting purposes only, shows the number of cases in which defendants are believed to be physically outside the court's jurisdiction and no arrest warrant has been issued.

FINANCIAL INFORMATION

The municipal courts' financial information has been taken from published budget statements compiled by the Arizona League of Cities and Towns. Only total budget figures were available.

PERSONNEL INFORMATION

The personnel information presented herein is based on responses to a personnel survey conducted by the Arizona Supreme Court.

Due to the vast number and variety of position titles that exist within the municipal courts statewide, the following general position groupings have been established for purposes of this report:

Judge
Administrative Staff
Support Staff
Secretary/Clerical

Since there is no statewide uniformity in regard to position titles and corresponding job-related responsibilities, for purposes of this report, positions have been grouped together solely on the basis of position titles. The following definitions detail what positions are included in each grouping.

The "Judge" position grouping includes all judicial titles such as:

Assistant Magistrate
Associate Magistrate
Chief Magistrate
Chief Presiding City Judge
Deputy Judge
Deputy Magistrate
Judge
Magistrate
Special Magistrate

The "Administrative Staff" position grouping includes the following titles:

Administrative Assistant
Court Administrator
Courtroom Management Administrator
Curriculum/Training Officer
Deputy Magistrate/Court Clerk
Judicial Administrator

The "Support Staff" position grouping includes the following titles:

Accountant
Assistant City Attorney
Bailiff
Bailiff/Translator
Budget Analyst
Court Clerk Supervisor
Court Interpreter
Court Planning/Research Specialist
Court Services Manager
Court Services Supervisor
M.I.S. Coordinator

Personnel Analyst
Systems and Procedures Analyst

The "Secretary/Clerical" position grouping includes the following titles:

[a] Figures do not include Tucson City Court terminations of non-traffic misdemeanors for November and December. Due to a computer program problem, the court was unable to provide us with these figures.

[b] All Phoenix and Tucson Municipal Court cases are included in this category as those two courts do not provide aging statistics.

[c] Figures do not coincide with those reported as 1982 ending pending figures due to the inclusion of 1982 statistics for one court whose 1982 December statistics were not received in time for the 1982 publication.

Court Receipts

The following section lists the total amount of fines, fees, forfeitures and surcharges reported as collected by the various courts throughout the state of Arizona during fiscal year 1982-83. The amounts reported are unaudited.

Appellate court revenues consist primarily of filing fees. Fees are collected by the Supreme Court pursuant to Arizona Revised Statutes §12-321 and §12-120.32 and by the Court of Appeals pursuant to A.R.S. §12-120.31. The Supreme Court also collects fees as authorized under A.R.S. §12-323 for certificates of admission to the State Bar and for certified copies of records.

The Superior Court is authorized under A.R.S. §§12-311 through -313 to assess various fees for civil actions taken, and pursuant to A.R.S. §§13-801 to -804 to collect criminal fines imposed by the courts. The clerk of the superior court is charged in A.R.S. §11-554 with the duty of collecting fees for court and court-related actions (marriage licenses, filing of papers, etc.). Additionally, A.R.S. §§25-303 and -311.01 charge the clerk with the collection of fees for annulment and dissolution of marriage filings, and A.R.S. § 22-283 provides for fees for civil appeals from justice courts. In several counties the probation department collects graduated fines and probation services fees and submits such amounts to the clerk of the superior court. In 1982, the Legislature increased fees in the following sections of the statutes: A.R.S. §§7-103, 11-554, 12-311, 12-313, 12-407, 12-1705, 12-2107, 22-283, 25-303, 25-311.01, and 33-961.

Justices of the peace are empowered by A.R.S. §22-112 to set bail for traffic offenses and under A.R.S. §§22-281 and -282, to collect fees for civil actions in their court. Fees for small claims filings in justice courts are set by A.R.S. §22-522. Constables are entitled to collect fees in civil actions for serving summonses, levying and returning writs of attachment, and other services as provided by A.R.S. §11-445. A.R.S. §13-807 provides that all such amounts collected be remitted to the county treasurer.

Municipal courts, pursuant to A.R.S. §22-424, may set bail for traffic offenses. Fines collected by municipal courts are remitted to the local municipality.

In addition to the courts' authority to collect the fines and fees noted above, the state legislature has mandated that surcharges be imposed for particular offenses. The funds generated by these surcharges are used to support special programs.

Pursuant to A.R.S. § 41-2403, a 37% penalty is assessed "on every fine, penalty and forfeiture imposed and collected by the courts for criminal offenses." This penalty assessment is collected by the state and distributed pursuant to statute to the Peace Officers' Training Fund, Prosecuting Attorney's Advisory Council, Department of Health Services, Department of Public Safety, Department of Law, Department of Corrections, Arizona Criminal Justice Commission, and the Supreme Court. The portion received by the Supreme Court is to be used for reducing juvenile crime and for the appointment of judges pro tempore in the superior courts.

By statute, all surcharges are to be remitted to the respective county or city treasurer who in turn forwards the funds to the state treasurer.

CHANGES AFFECTING FY 1983-84 COURT RECEIPTS

In its first regular session, the 36th Arizona Legislature (1983) passed legislation which will impact court receipts in fiscal year 1983-84 and thereafter. The changes are summarized here.

1. Fees collected pursuant to A.R.S. §§25-303 and 25-311.01 have been increased.

2. Beginning January 1, 1984, Arizona will have procedures providing for the civil adjudication of minor traffic offenses. A.R.S. §28-1076 provides that the court may impose a civil sanction not exceeding $250 when a person has been found responsible for a civil traffic violation.

3. An additional surcharge has been imposed to support the Emergency Medical Services Operating Fund. Chapter 249 of the Laws of 1983 creates the fund and adds A.R.S. §36-2219 which requires a $30 penalty assessment on every fine, penalty, and forfeiture for a violation of A.R.S. §28-692 (D.W.I.) and a $5 penalty for violations of Title 28, Chapter 6, Articles 2 through 15, except § 28-692.
